

## Yoga

### 1. What is yoga?

Most people know yoga as a kind of exercise which aims at developing strength and flexibility. To practise yoga, you learn a series of 'postures', where you put your body into different positions. The correct breathing is also important. However, yoga is really about more than just exercise. In 2014, the Prime Minister of India, Narendra Modi, asked the United Nations to create an International Day of Yoga, saying that yoga 'is not about exercise but to discover the sense of unity with yourself, the world and nature'. He felt that yoga could not just help people to be healthier but also help connect people to each other and to nature. The United Nations agreed, and International Yoga Day is now celebrated on 21 June.

## 5. Different types of yoga - Modern Yoga

As well as these and other more traditional forms of yoga, there are also some more unusual modern forms of yoga. For example, you might enjoy 'laughter yoga', where people do breathing exercises and laugh about nothing in particular – laughing is very good for your health.

Or what about 'Aeroyoga', where you do yoga while you are hanging from the ceiling? It's supposed to be very good for your back.

Or 'Doga', where you do yoga together with your pet dog?

Whatever kind of yoga you choose, there are definitely some health benefits, and you should have fun too.

### 3. What are the benefits of yoga?

Yoga is good for the mind and body. Regular practice of yoga helps people to improve their balance and resistance. Although you won't really get out of breath, like you might playing football or running, it does help to keep your heart healthy and you can lose weight. It can also help with back pain.

The breathing taught in yoga can help people to reduce stress and anxiety. There are lots of different possible breathing patterns you can do. Yoga also improves concentration and helps people to sleep better, so it's great for anyone who's under pressure at work or in their studies.

## 2. Where did yoga come from?

The history of yoga goes back at least 5,000 years. It was first developed in Northern India and at this stage was a spiritual as well as a physical form of exercise, connected with both Hinduism and Buddhism. In the late 19th and early 20th centuries, yoga was introduced to the Western world when Swami Vivekananda travelled to the United States to talk about yoga at a conference in Chicago in 1893. Others followed in the 1920s and 1930s, and by the 1960s yoga had become a very popular form of exercise in the United States and in Europe. Most people who practise yoga today do not do it for spiritual reasons.
